WORK EXPERIENCE

Fullstack & Mobile Developer at [Rustai](#)

12/2025 – Present

Full-time · Remote · Brno

- Own client products end to end, from the first client meeting to deployment on the client's own infrastructure.
- Main point of contact for clients: requirements, progress updates and next steps.
- Shipped **15+** client projects, incl. **8+** mobile apps on Google Play and App Store with **~9,000** installs.
- Web and mobile in Next.js, React, React Native and Expo (EAS, OTA) with TypeScript, Bun, PostgreSQL, Redis, Better Auth and shadcn/ui.
- Deploy and run with Docker, Dokploy, Cloudflare, GitHub Actions CI/CD and Grafana; E2E tests in Playwright and Cypress.

Frontend Developer at Finie s.r.o.

11/2025 – 12/2025

Freelance

- Frontend development of the product in Vue, Nuxt and Nuxt UI with TypeScript.
- Designed individual UI components for the internal UI library based on specs.

React Native Developer at [Displio](#)

02/2024 – 10/2025

Full-time · Remote · Prague

- Built React Native (Expo EAS, OTA) and Electron apps in TypeScript for Displio, a Czech digital signage SaaS, with Redux, WebSockets and push notifications.
- Integrated REST APIs with JWT/OAuth auth, Sentry crash monitoring; tests in Jest and Postman.

Technical Author at [ITnetwork](#)

07/2023 – 07/2024

Contract · Remote

- Wrote C# and SQL (ADO.NET) tutorials, sample programs, algorithm cheat sheets and tests.

[Algorithms cheat sheet](#) [ADO.NET exercises 1-6](#) [ADO.NET exercises 7-8](#)

Frontend Developer at gPoint Interactive

09/2021 – 08/2023

Freelance · Remote

- Client work from first contact to launch: Figma designs, Scrum, code reviews.
- Built SEO-optimized client websites with React, Next.js, Tailwind CSS, JavaScript, MySQL, Python and Git, incl. YXO Market, AdwyData and PoKi.

PROJECTS

[vyzyvatel.com](#)

09/2025 – Present

Core dev team

Multiplayer quiz game, the modern successor to the legendary Czech Dobyvateľ, with

170,000+ players. I work on its frontend architecture, features and UI performance. Reached **600,000+** views on YouTube and **1.5M+** views on Instagram.

[References](#) [Seznam Medium article](#) [Instagram](#)

ADB Ready

2026

Local Android runtime for coding agents: prepares a target, runs the app, operates it and returns verified evidence for devs, agents and CI.

[GitHub](#) [npm](#)

Sveltick **38 GitHub stars**

2024

Lightweight performance and traffic analytics for Svelte 4/5: FCP, LCP, TTFB, routes, custom thresholds and alerts.
